# JACK W. BEVIS

---

## ABOUT

I am a software developer focused on front-end languages and libraries. I am drawn to software development because the number of challenges are only outnumbered by the unique ways to solve them. I strive to learn something new everyday and I look forward to the opportunity to bring my experience and skills building functional React components and my background in GIS / cartographic design to your team.

## SKILLS

**Languages** - JavaScript(ES6), SQL, CSS3, HTML5, Web Standards

**Frameworks/Libraries** - Node.js, React.js, Redux, Express.js, Knex.js, React-Router

**Tools** - jQuery, Sass/SCSS, PostgreSQL, Websockets, Webpack, D3.js, Victory.js, Leaflet.js

**Test Driven Development** - Mocha, Chai, Enzyme, Jest, Jasmine, Selenium

**Workflow** - Agile, Git, Trello, Waffle.io, CircleCI

## PROJECTS

**Get Out There** (Solo Project) <https://jbevis.github.io/Get-Out-There>

Trail finding app for hikers to locate trails within a distance of a location.

- Uses nest asynchronous API calls to pass user location through Google's Geocode API to get Latitude and Longitude, then sends that to Hiking Project API.
- Stack: Node.js, Express.js, Knex.js, React.js, Redux, React-Router, Victory.js, PostgreSQL, Mocha, Chai, Enzyme, Jest

**Jet Fuel** (Group Project) <https://aw-jb-jetfuel.herokuapp.com>

Bookmarking service that allows user to save shortened URLs and organize them.

- Create new link with redirect to original URL.
- Co-lead, I was responsible for GET and POST endpoints, as well as URL validation.
- Stack: Node.js, Express.js, Knex.js, jQuery, PostgreSQL, Mocha, Chai

**Trivial** (Group Project) <https://trivial123.herokuapp.com>

Users can login and play Jeopardy style trivia against their friends.

- Users can play against their friends and get real time results.
- Co-lead on project, wrote bulk of testing suite for the program.
- Stack: Node.js, Express.js, Knex.js, React.js, Socket.io, Sass/SCSS, PostgreSQL, Mocha, Chai, Enzyme, Jest

## EXPERIENCE

**Turing School of Software & Design, Denver, CO** — *Frontend Engineering Student*  
2017

JAN 2017 - AUG

- 1,500+ hour immersive program with focus on client side web development and UX/UI.

**Smart Reach Digital, Denver, CO** — *Operations Manager*

DEC 2014 - DEC 2016

- Managed digital campaigns for New England, Buffalo, Seattle, and Kansas City markets.
- Performed QA/QC of digital banner ad, promotional email, web development, SEO/SEM campaigns.

## EDUCATION

**Pennsylvania State University** — *Postbaccalaureate Certificate GIS* College Park, PA

JUNE 2011 - JUNE 2012

**University of Colorado** — *BA Anthropology, minor Classics, with distinction* Boulder, CO

AUG 2006 - MAY 2010
